

Univar's ChemCareSM teams with Systech Environmental to Convert

1 Billion Pounds of Chemical Waste into Fuel

For nearly 30 years, ChemCare has enabled Systech to fuel kilns at 3 of its parent and affiliate cement manufacturing plants.

The cumulative shipment of 1 billion pounds of waste in the last 27 years has:

Replaced the equivalent
 **500,000**
tons of coal

Saved the mining and use of roughly
25,000 
truckloads of coal

Contributed to a
40% 
reduction
in CO₂ emissions over coal

Produced **2 million** tons of cement
enough to pave a
2 lane US Interstate **2200**
miles long

Generating enough
electric power
to supply  **80,000**
homes for an entire year

For more information, contact your ChemCare or Univar USA, Inc. account manager, or the ChemCare team at chemcare@univarusa.com.
